Allowable Subject Matter

1. Claims 1-18 are allowed.

Claims 1, 7, 13 are independent claims.

The following is an examiner's statement of reasons for allowance:

As to claim 1, 7, and 13 the present invention from the application discloses an apparatus, a method and a stored control program for controlling to display pages in a **print job** (it is noted that the print job would not be a document but a converted printed document) in which “zooming and displaying multiple pages included in the print job based on the scale determined at which the page with the recognizing maximum length in the predetermined direction falls within a frame of a predetermined size, wherein the scale determined is changed in accordance with a combination of the multiple pages included in the print job, and wherein the multiple pages are zoomed in the step of zooming while maintaining a relationship of sizes among the multiple pages”. The closest prior art such as Tonkin (US Patent No. 6,134,568) discloses the preview system for previewing a document and inputting information from a user interface specifying an arrangement of components to create the document. However, Tonkin, including an updated electronic text search, fails to anticipate or render the above underlined limitations obvious.
